

ACME Salary Management System

Database ER Diagram

Enums

employment_status: ACTIVE | INACTIVE | TERMINATED | ON_LEAVE
pay_frequency: WEEKLY | MONTHLY | QUARTERLY | YEARLY
status (profile / record): ACTIVE | INACTIVE | DRAFT
payment_status: PAID | NOT_PAID
component_type: EARNING | DEDUCTION
calculation_method: FIXED | PERCENTAGE | PER_UNIT

Key Notes

- salary_record_components has a unique pair (salary_record_id, salary_component_id).
- Deleting an employee cascades to employee_salary_profiles and salary_records.
- Deleting a salary record cascades to salary_record_components.
- Exchange rates are not stored in DB; they come from the Frankfurter API at runtime.
